

Ángeles de trapo

Puppet theatre company

Vagabundos del carrusel

About us

Ángeles de trapo is a family-owned company with 40 years of experience in puppets theatre, run by Iolanda Atalla, Julio, Maicol and Wagner Gallo. Since the company was established it has been recognized for the professional level of its theatrical productions during all these years. The company is always trying to innovate, to surprise audience and to break away from the established schemes in the world of puppets theatre. Its last productions have travelled around the world and have been included in the most famous national and international festivals, having won several awards.

Introduction

“Viajeros del carrusel” is inspired by characters of the musical suite “The carnival of the animals” by Camille Saint Saëns.

Synopsis

A clown enters a wonderful world of carousels; beside him, more than a dozen colourful automaton characters tell us short stories which are full of humour and emotion. It is a performance where we delight in live music and experience sensory stimulations that invite us to dream and travel through an awesome fantasy world.
